**The Ozaukee Corvette Club was organized in 1979, and incorporated in 1983, as a not for profit organization. We promote the safe and responsible operation of motor vehicles for the benefit of the community, and members of our club. Our membership is very diverse in age and interests, yet we all celebrate the Corvette, and regard each one as a true classic.**

**The Ozaukee Corvette Club is primarily a social organization, rather than a competition oriented club. Through our fund raising, we support various area charities each year. Interested**

**Corvette enthusiasts are encouraged and welcome to attend our meetings and informal get-togethers.**

**Our business meetings are held at the Highland House Restaurant in Mequon 12741 N Port Washington Road please check our calendar for dates and times or Wayne's Drive-in during the Summer months- weather permitting. Along with that during the summer months, we can be found each Wednesday evening around 5PM at Wayne's Drive-In, 5 Corners intersection, in Cedarburg. Please check the calendar on line for all events , times etc.**

## What's Happening

Please check our website for more detailed information.

The Chevrolet Corvette is more than just a car—it's a symbol of American innovation, performance, and style. Here's a sweeping look at its evolution, with some fantastic videos to dive deeper into each chapter:

### 📖 Origins and Early Years (1953–1962)

The Corvette debuted in 1953 as a sleek fiberglass-bodied roadster, powered by a modest inline-six engine. It was GM's answer to European sports cars, and while early sales were slow, the introduction of a V8 in 1955 changed everything.

The Complete History of the Corvette explores the Corvette's birth, highlighting Harley Earl's vision and Zora Arkus-Duntov's engineering genius that transformed it into a performance icon.

### 📖 Sting Ray to Shark (1963–1982)

The second generation (C2) introduced the Sting Ray name and a more aggressive design. The C3 followed with dramatic curves and a focus on style, though emissions regulations in the '70s dulled performance.

History of Chevrolet Corvette | Chevy (Automobile Documentary) offers a decade-by-decade breakdown, including rare footage and commentary on the L88 and Mako Shark concepts.

HISTORY OF THE CORVETTE gives a visual timeline from 1954 to 2023, perfect for seeing how each model evolved.

### 📖 Digital Age and Performance Revival (1984–2004)

The C4 brought digital dashboards and aerodynamic styling. The C5 introduced the LS1 engine and a rear-mounted transaxle, improving balance and handling.

The History of The Chevrolet Corvette: Decades of ICONIC ... walks through each generation with clear visuals and concise commentary, ideal for understanding how Corvette adapted to changing tech and tastes.

### 📖 Modern Muscle and Mid-Engine Revolution (2005–Present)

The C6 and C7 refined the Corvette's performance, with models like the Z06 and ZR1 pushing boundaries. The C8, launched in 2020, marked a radical shift to a mid-engine layout, rivaling European supercars.

Evolution of Chevrolet Corvette [1953 - 2024] showcases every generation from C1 to C8, including the electrified E-Ray.

The COMPLETE History Of The ZR1 CORVETTE dives deep into the ZR1 lineage, highlighting its role as the Corvette's ultimate performance variant.
